

Graham Feek

Managing Director

Greenwood Educations Services Ltd

Deputy Chief Executive/Executive Director

Greenwood Academy Trust (GAT)

I am qualified accountant with overall operational responsibility for GAT, including digital, finance, governance, legal and compliance frameworks, safety and welfare, strategic and operational planning and strategic and business partnerships.

I have over 20 years experience in various senior roles in the public sector within the finance and education sectors.

I believe passionately that all young people need to be able to thrive in this 4th Industrial Revolution and we should inspire and help equip them to succeed by developing their skills and character, not only to support them being successful in passing tests and examinations but also to help them secure high quality jobs.

I also take the leading role on a number of life changing inclusion projects in the areas of employment for young people with additional needs and those at risk of being exploited through county-lines and other gang related activity.
