

Digital Transformation Subscription

Upgrade Your School's IT – At Your Own Pace, Without the Big Upfront Cost.

Why Digital Transformation Matters

Multi-Academy Trusts (MATs) often face significant challenges when managing technology. Whether it's outdated systems, inefficient spending, or a lack of digital training for staff, the right technology strategy can transform the way your trust operates.

At Our Learning Cloud, we provide a structured, cost-effective approach to IT transformation that allows your trust to upgrade at its own pace, without overwhelming budgets or resources.

What is the Digital Transformation Subscription?

This subscription model is designed for MATs that want to innovate and grow, providing ongoing improvements without the need for a massive upfront investment. Instead of replacing everything at once, we work with you term by term, focusing on the changes that will make the biggest impact.

With expert guidance, training, and support, we help your trust develop a future-proof IT environment that enhances both learning and operational efficiency - all while saving money.

Subscription overview

We support MATs at every stage of their tech journey. Foundation provides audits, roadmaps, and staff training. Growth adds structured implementation with audits, workshops, and project support. Transformation offers high-level leadership with a Virtual CTO, on-site visits, and full IT integration.

Whatever your trust's goals, *we have a plan to match.*

Foundation Membership

Laying the Groundwork

For trusts starting their digital transformation journey, providing essential audits, training, and support.

£250/month per school

Growth Membership

Driving Steady Progress

For MATs that have a strategy but need help implementing changes, refining systems, and upskilling staff.

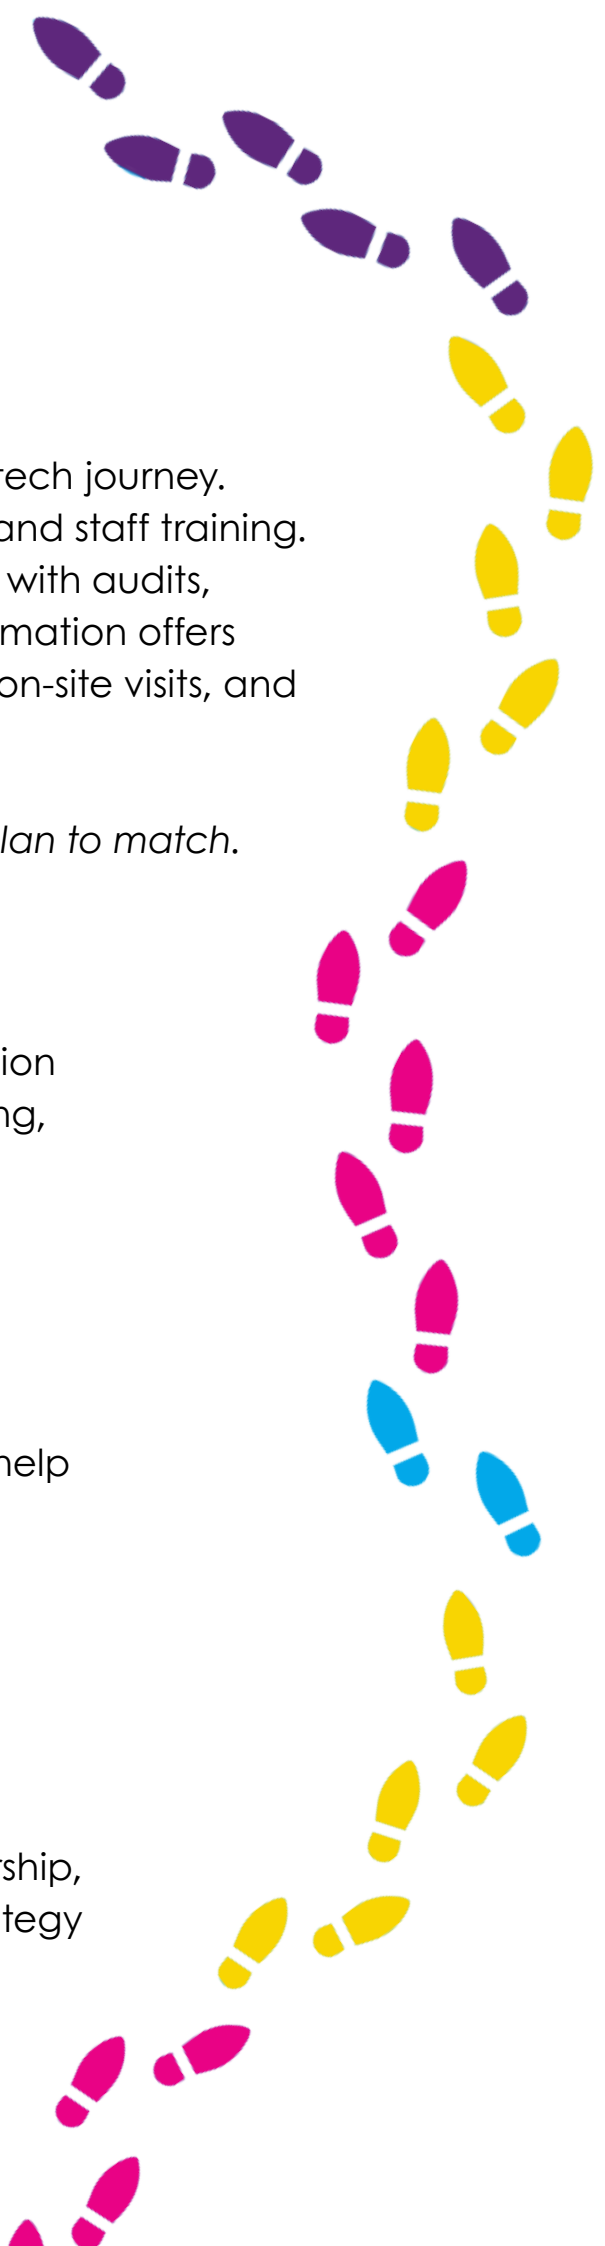

£450/month per school

Transformation Membership

Optimising & Innovating

For trusts that want high-level IT leadership, hands-on support, and long-term strategy planning.

£800/month per school

Foundation Membership

Building the Digital Foundations for Your MAT

Who is this for?

The Foundation Membership is ideal for MATs that know they need to improve their IT but aren't sure where to start. You may be working with outdated systems, lack a clear digital road map, or struggle to find time for staff training.

This level is all about building strong foundations - giving your trust the guidance, support, and practical tools to make the right first steps toward transformation.

What's Included?

- Annual tech audit & strategic roadmap – Understand where you are and where you need to go
- Monthly resource library updates – Stay informed with curated tools & best practices
- One training session per term for staff (live or recorded) – Empower staff with practical IT skills
- One strategy call per term per school – Ensure each school is on track with its digital goals
- Help desk support for school IT teams – Quick troubleshooting & advice
- Exclusive newsletter – Breaking down the latest education tech trends and best practices.

Cost: £250/month per school

Growth Membership

Driving Meaningful Change with Technology

Who is this for?

The Growth Membership is designed for MATs that already have a basic IT strategy but want to make steady, measurable improvements. If your trust is exploring new technologies, but implementation feels slow or disjointed, this level will bridge the gap between ideas and action.

This plan focuses on incremental changes, giving your trust the support, structure, and accountability needed to embed new digital tools, processes, and training effectively.

What's Included?

- All Foundation features
- Quarterly in-depth progress audits & roadmap refinements – Ensure your trust is improving at a steady pace
- Two virtual staff workshops per month (live or on-demand) – Provide practical skills and training for staff
- Project management support for new tools & processes
(T&Cs apply we provide implementation support but tools are paid for by the school/trust)

Cost: £450/month per school

Transformation Membership

Optimising, Scaling, and Leading in Digital Innovation

Who is this for?

The Transformation Membership is for MATs that want to lead the way in Tech innovation. If your trust is committed to using technology for long-term impact, this plan gives you the highest level of expert guidance, hands-on support, and long-term digital strategy planning.

With a Virtual CTO (Chief Technology Officer) service and regular on-site strategy sessions, this membership is the equivalent of having a dedicated IT transformation team working alongside your trust.

What's Included?

- All Growth features
- Virtual CTO service – A dedicated expert guiding your trust's IT transformation
- Termly on-site visits – Hands-on training and advanced strategy sessions
- Full management of new project, system, & tool integrations – We help implement of all technology from start to finish
- Enhanced security services – Keeping your trust's data and systems protected

Cost: £800/month per school

Why Our Learning Cloud is the Right Partner for Your MAT

At Our Learning Cloud, we are MAT-owned and MAT-formed, meaning we understand the unique challenges trusts face. Unlike generic IT providers, our solutions are designed specifically for education, working within MAT structures, funding constraints, and the need for scalable, cost-effective technology.

With first-hand experience of balancing cost, efficiency, and impact, we have successfully helped MATs streamline IT, reduce costs, and enhance teaching and learning. Our expert team collaborates closely with trust leaders to ensure every decision aligns with your goals and long-term vision.

By choosing Our Learning Cloud, you gain a trusted partner with a proven track record of delivering digital transformation that truly supports staff and students.

Don't just take our word for it...

"This isn't just IT support - it's a game-changing approach to school technology. We saved thousands while improving efficiency."

Deputy CEO - Greenwood MAT

"The structured approach helped us stay on track. Our trust is now more efficient, saving money, and improving staff confidence in IT."

Headteacher, Partner School
